Power cord splitter allows 2 devices with C14 inlets to share one AC power input cord and one NEMA 5-15R outlet.

Features

Y-Style Power Cord Splitter Connects 2 Devices with C14 Inlets to One AC Outlet

This computer power cord splitter allows two devices with C14 power inlets to share one AC input cord and one NEMA 5-15R outlet. By connecting two devices to one outlet, the power cord splitter frees up space in a PDU or surge protector and helps reduce cable clutter. You can also free up valuable PDU space by connecting bulky power adapters to this splitter, preventing the adapters from blocking adjacent outlets.

Dual IEC Cable Powers a Wide Variety of Essential Electronics

With this PC power splitter, a single NEMA 5-15R outlet can power two devices, such as computers, monitors, printers, instrument amplifiers and other equipment compatible with a C13 connector. Ideal for areas where AC outlets are limited, such as rack cabinets, this dual IEC power cable is compatible with Tripp Lite power and extension cords.
